CUSTOM PRINTED FLAGS

Custom printed flag flags are the most versatile and best value flags on the market in the UK today. Combining top of the range materials and optimum flying weights, these flags last as well as traditional sewn flags but fly much better at lower wind speeds.

Manufactured using flame-retardant 110gsm knitted polyester and fitted with rope and toggle as standard, these flags can be fitted with metal eyelets or a sleeve at no extra charge. Unlike other printers we Colour fix and wash all our outdoor fabric flags before they are dispatched so no colour runs GUARANTEED!

PROMOTIONAL PRINTED BUNTING

Custom printed bunting is versatile and eye-catching product that would add colour to any event especially when printed with your brand logo or image. Pennants can be triangular, rectangular or custom cut to almost any shape to create a professional image. Bunting is used to decorate indoor and outdoor spaces.

- 10m lengths
- 24 printed pennants per length
- Pennant size: approx. 290mm x 200mm
- Material: Knitted Polyester
- For outdoor or indoor use
- Style: Triangular, Rectangular or Custom Pennants
- 3 alternate designs per length inc
- Design shows correctly to one side, and is mirror image to reverse.

PRINTED TABLECLOTHS

DIGITAL PRINTED

Help to promote your company. If you are going to an exhibition or an event where you will be showcasing your company why not consider a promotional printed tablecloth.

Help your company to stand out from the crowd and have a professional finish to your table. We have helped thousands of companies to do this, from large blue chip companies requiring hundreds of printed tablecloths for worldwide usage to small one man outfits, our printed tablecloths can help you to win business and customers. All printed all over the cloth in a range of fabric and colour options so if you need a pantone specific background colour to your cloth or a really intricate design we can provide this for you.

- 210gsm Polyester
- Fire Retardant Coating On Material
- Waterproof DYE inks
- UV stable
- Stitched all around Using 100% Polyester Thread
- Special bespoke finishing available

SOFT TOUCH WHERE FORM MEETS FUNCTION

Soft Touch is a range of standard structures that are manufactured from strong, yet lightweight, tubular aluminium which is then dressed with a tensioned fabric graphic.

Stretching a tough fabric graphic over the structure changes it from a simple frame to an elegant, engaging form, suitable for various situations and applications.

The Soft Touch range consists of fabric displays, available in various widths and configurations; shaped counters, impressive retail and exhibition structures, hanging structures and a multitude of accessories.

LIGHTWEIGHT, IMPRESSIVE DISPLAY IN TWO EASY STEPS

Soft Touch fabric displays are aluminium structures with textile fabric graphic socks that wrap snugly around each frame.

Push tubes together following the numbers (start at number 1).

Depress the button making sure tubes click together to build the frame

Completed structure

Slide fabric graphic over frame, secure with heavy duty zip, and add feet for stability.

HERE'S WHY SOFT TOUCH IS PROVING SO POPULAR

- Each structure is manufactured from lightweight but strong 32mm diameter aluminium framework making the kit easily portable.
- Each of the connecting frame sections are labelled with matching numbers and have a bungee cord inside, meaning that it is much easier to assemble and saves time compared with other types of display equipment.
- The elasticity within the fabric makes the graphics extremely durable and long lasting giving a great return on investment.
- Attaching the graphics is simple! Each graphic slides effortlessly over the framework and zips closed.
- Kits pack away into a small carry bag making them convenient to transport and store.
- Graphics are easy to care for. After use, zip closed, fold up and place into the bag. If the graphics get dirty during use they can be washed.

Numbered tubes and bungee cord make for easy assembly

ST

SOFT TOUCH SNAKE FABRIC DISPLAY

Soft Touch Snake fabric display is a visually arresting large banner stand. Stretch the fabric sock over the tubular frame. With vibrant fabric print Snake is bound to draw attention.

Ideal for retail or for exhibitions. Snake is beautifully curvy. It is a seductive alternative to a straight up and down banner stand. Lightweight and portable, the Snake is easy to assemble and disassemble. It comes complete with its own fabric carry bag. The Soft Touch range of displays share a common construction. 32mm aluminium tubing push-fits to form a light but strong frame. Each piece of the tube frame is labelled at both ends. Just match the labels and connect the tubes. The joins click into place. When finished 16mm bungee poles are added as you can see in the video below. These act as spacers. Soft Touch frames weigh only a few kilograms when assembled They are however strong and rigid.

- Quick and Simple to assemble
- Choose from 3 different shapes:
- Snake Curved/Snake Straight/Snake Slant
- Size: 915mm width x 2280mm height
- Fully washable dye-sublimation fabric
- Easy to assemble push-fit tubular framework
- One piece zip-on fabric graphic – double sided print
- Packs into supplied bag for transport
- Large powerful display

VISION FABRIC WALL

Traditionally linking Uno banner stands are printed on fabric material, which allows them to be linked easily with the Vision fixing kit. However, for companies who are looking for a compact, lightweight option, we supply Vision with fabric graphic panel, making the Vision fabric wall extremely lightweight.

Developments to Vision now allow multiple frames to be linked together with one complete fabric graphic panel to cover the full width. This makes Vision a very cost effective linking banner that can switch between sizes and updated graphics, on different materials for years of versatile display use.

Vision fabric wall Kit comes with the correct number of Vision's depending on length required along with the magnetic connectors and printed fabric graphics

Available in black, white or silver. Ideal for placing centrally on graphic panel. iPad not included

New banner pole

Twist & lock pole

Tensioning system

STEALTH IMPROVEMENTS

At the base of each banner pole there is a unique sprung graphic fixing unit that features a tensioning system to ensure your graphics are held taut.

The unit has two sprung sections that work independently for individual tensioning of double-sided graphics.

Each post takes up to two universal LED light fittings to allow single or double-sided lighting. Recommended LED lighting - LED Flood Light and LED Strip Lights

LED Flood Strip Lights

STEALTH BANNER

Just a few ideas for inspiration, see how flexible Stealth is. Use single or double-sided graphics so your message can be seen from all angles.*

* Minimum panel width of 600mm. Double-sided graphics on straight configurations only

Flexible panels can curve to different angles.

Free-standing island displays and information units.

Portable road show displays or demonstrator back walls.

Banner-to-banner fixing for robust, perfectly straight back walls for events and exhibitions.

Create free-standing exhibition booths and sides. Large area backdrops for events and sponsorship.

Your image doesn't need to be flat. Create eye-catching curved displays.

SS SHELL SCHEME GRAPHICS

Exhibition and trade show shell-schemes are the most common spaces potential exhibitors will book when exhibiting at an event.

We have produced the simplest way to brand these shell-schemes by using PrintTac, Rollable tear resistant graphics, rigid foamex pvc graphics or vector frame with seamless fabric graphic. The graphic panels sit smoothly within the aluminium upright posts. We can even add the hook and loop velcro to your panels if required.

SP SHELL PRINTTAC SHELL SCHEME GRAPHICS

Simple, very cost-effective, very portable and very ecological.

Shell PrintTac is a made-to-measure, floor-to-ceiling graphic panel that sticks beautifully to your shell scheme panel and can be removed leaving NO residue. With care it can be used again on a variety of surfaces.

Each Shell PrintTac panel measures 950mm x 2340mm (standard size of a UK and Europe shell scheme panel)

- Leaves a visible shell scheme framework
- Simple fitting instructions are provided
- Made from an amazingly strong, fire-retardant, polyester blend
- Wont rip or wrinkle
- Good scratch and scuff resistance

SHELL PRINTTAC

Code: SPAC

VF VECTOR FRAME & BRACKETS WITH FABRIC GRAPHICS

We can produce stunning exhibition graphics to fit any shell scheme by using the Vector frame and brackets. This ensures the vector frame wall area provides a seamless fabric graphic wall.

VECTOR FRAME

Code: VFFG

RS RIGID SHELL SCHEME PANELS

We have a wide range of velcro friendly Rigid display panels. Our printed rigid display boards make the ideal trade show exhibit graphics. These Display Boards are a popular solution to branding exhibition and trade show stands. Large format high quality printing using vivid inks onto a 3mm foamex PVC board. You get a lightweight durable display board that can be screwed or attached using Velcro onto an exhibition booth.

RIGID SHELL

Code: RSSP

FABRIC TENSION SYSTEMS

The Fabric Tension family of products are built around an extensive collection of aluminium frame systems. Graphics are printed to your choice of fabrics from our range, to suit front or back lit use with outdoor and indoor options. Each fabric print is finished with a silicon welt which simply pushes into the frame profile creating a tensioned, fitting free finish installation and a 'frameless look'. Our fabric graphics systems enable you to put great artwork at the centre of your display.

- Stunning minimalist systems maximising graphics area with a 'frameless look'
- Easy user graphics change
- Stunning wide format fabric graphics
- Choice of profile depths
- LED Light box option available
